Editorial

by Alan Borwell

No. 58 Summer 1997

As I write this editorial, watching the rain pour down and with the central heating on, I wonder if our change from publication months to seasons, was really a good idea, and if this can possibly be *summer*!

However, we hope there are interesting games, the new rating lists and other information to keep you occupied, if you cannot do the gardening or enjoy long sunny evenings. Due to space limitations, we have had to hold over several articles and games, hopefully for inclusion in future editions.

Your Association now has its second President and I would like to extend to David Kilgour my very best wishes for a long and enjoyable period in office. The first 20 years of the Scottish CCA have seen considerable progress and there are many interesting challenges and opportunities ahead, as we approach the Millenium. In addition to the traditional way of playing correspondence chess, we have seen the emergence of fax and, particularly, Email methods of CC play. Soon, the Scottish CCA will have its own World Wide Web Internet pages and a great deal of international CC information is now available on "iccf.com", which has had nearly 20,000 visitations in its first year.

We are fortunate that Iain Mackintosh has agreed to become our new Vice President, having been a regular CC player and SCCA member for many years. Iain brings to the Executive Committee a wealth of computer expertise and other professional skills, and Jim Falconer has also agreed to provide assistance with technology matters, including our WWW pages. We also welcome the return of Alan Armstrong as a Committee Member, and Tom Thomson has taken over the Assistant International Secretary role from Richard Beecham. Our thanks to Richard for his work on our behalf, particularly with the friendly international matches.

In less than three months time, George Pyrich and I will be attending the first ICCF Congress, in its long history, to be held outside Europe. The visit to Buenos Aires, Argentina, will provide a unique opportunity to meet many South American CC friends and to promote international CC and friendships in this important Zone of ICCF. It will be a long and arduous journey, but we will extend best wishes from all Scottish CCA officials and players to our hosts and Latin American friends! A full report on the 1997 ICCF Congress will be published in the Autumn 1997 Magazine, due for publication in October.

New Scottish CCA President David A. Kilgour

Following Alan Borwell's decision to retire after 20 years service, I was privileged to be appointed as your new President at the AGM held recently in Stirling. I look forward to taking the Association into the next Millenium, along with our very experienced Executive team.

When the Scottish CCA was formed on 26/2/77, Alan became its first President, although postal chess activities had been organised for many years by the late Bernard Partridge, under the auspices of the SCA. During the late 1970s, Alan actively campaigned for the independent status of Scotland within ICCF and this was eventually achieved in 1981, almost 50 years after the SCA became a full member of FIDE! Despite our relatively small number of players, Scotland is now one of the leading nations in international CC, with outstanding achievements in both individual and team competitions, as well as being hosts to two very successful ICCF Congresses.

It was Alan who initiated the magazine and, along with his wife Moira, developed it into what it is today - one of the best publications of any ICCF member country. We are very pleased that they will continue to publish the magazine and that Alan will be still on the Committee. I think that I can say that all members of our Association owe Alan a debt which is very difficult to repay and we wish him every success in the future.

As the new President, I would like to say that I am encouraged by the number of entries to individual and team events last year, especially when the number of members fell during the year.

I would like to encourage all members to work for the Association in trying to recruit at least one new member for the current season. As an over-the-board player, correspondence chess can help with opening theory and endgame knowledge and enables players to try new ideas which can then be played over-the-board, and all OTB players would find that their game improves by playing correspondence chess.

There are quite a few new developments in the method of playing chess with the aid of new technology which has allowed moves to be sent by fax and Email. Players can play games over the Internet where there are a large number of providers and chess clubs. Many chess clubs have Web sites which host information relating to the club and some of the members' games. Some sites have vast databases of games, some of which relate to games played just that day!

My view is that none of these other methods of playing chess will replace correspondence chess using the mail systems but they offer opportunities which individual players might wish to grasp. I play correspondence chess because I do not have the time to play OTB chess, and now that I am a little older I do not have the same concentration as I once did for OTB chess (this is justified by my recent performance in the Edinburgh League). I enjoy getting the postcards from home and abroad and corresponding with people from different countries. These pleasures are not dependent on your level of ability but rather what you make of it.

My wish is that your Association progresses with me as President and that progress should be determined by you, the members of the Association. You should enjoy being part of the Association and to this end your comments on the Scottish CCA are valuable, so why not let us know what you think.

SCOTTISH CORRESPONDENCE CHESS ASSOCIATION

Minutes of the Annual General Meeting held at The Golden Lion Hotel, 8-10 King Street, Stirling, on Sunday 1st June 1997 at 4.00pm.

Present: A.P. Borwell (President), A. Armstrong, R.W.M. Baxter, J. Falconer, A. Hind, D.A. Kilgour, D.M. Livie, I. Mackintosh, B. Milligan, I.W.S. Mitchell, G.D. Pyrich, I. Sneddon and T. Thomson.

Apologies: C.R. Beecham and G.W.G. Livie

President's Remarks

The President warmly welcomed everyone attending the meeting. It was encouraging to see a good attendance and a number of new faces. He thanked Tom Thomson for organising the accommodation.

He reiterated that, as announced at last year's AGM, he would be stepping down from the Presidency after 20 years in office. He was the only nomination for the post of ICCF President, due for election in September, and he felt that it was time for a new person to take over the Scottish Association.

The Minutes of the Previous Annual General Meeting held on 2nd June 1996, which were published in Magazine No. 54, were approved.

Secretary's Report

The Secretary reported the following:-

- In terms of membership, the Associated had not increased in number (in fact there had been a slight decline) but
 more players were competing in tournaments. Thanks were due to the sterling efforts of Bernard Milligan in
 reaching out to potential new members.
- In the domestic tournaments ending in 1996, the Championship was won jointly by Simon Gillam and Joe Watson, and the First Division of the League by Black Knight. It was encouraging that we had been able to reinstate the Championship in 1997 with a reasonably strong range of competitors. There were again three divisions in the League, which appeared to be competitive. The administration duties for the Leagues are to be handed over to the Assistant Secretary, Iain Sneddon, from 1997 and this should provide extra time to develop the League structure and strength and, hopefully, build this into a feeder system for full membership. The Committee were actively considering a paper prepared by Iain covering the structure of the league.
- We continued to have adequate numbers of Controllers and for this we were extremely thankful. These unpaid
 volunteers provide the vital internal framework to ensure that the tournaments continued.
- Two other projects under current consideration were potential revisions to the Rules Brochure to take account of ICCF changes and new tournament types (e.g. endgame, fax, e-mail), and a complete review of the Association's grading structure. Considerable work had been undertaken to date on these by Bernard Milligan and Raymond Baxter respectively.

Presentation

The Secretary referred to Alan Borwell's imminent retiral after 20 years as President. This pre-dated even "News Bulletin" No. 1 - the original Magazine of SCCA which is now at edition 57! In that, it was mooted that Alan should be thanked for taking on the production of the first few editions! Over those years the quality of the magazine has steadily improved, both in terms of content and presentation, and it continues to flourish and gain much domestic and international respect under the Editorial and Production team of Alan and Moira Borwell.

In that first magazine, Alan wrote an article referring to hopeful signs that our Association would gain its rightful place in international correspondence chess circles. Undoubtedly that had been achieved and over the years no-one could have worked harder within the ICCF framework to gain our independence.

Under Alan's leadership the Association had achieved all of its goals to date, including the successful hosting of two ICCF Congresses. We had an excellent reputation within ICCF which we were sure would culminate with Alan's election later this year to the post of ICCF President.

In recognition of those achievements, Alan was presented with a quaich and tankard. In expressing his appreciation and thanks, Alan referred to his pleasure in the choice of a quaich, the traditional Scottish cup of friendship, and the tankard would be put to good use!

Treasurer's Report

The Treasurer presented audited accounts for the year to 31st March 1997 (see details on following pages). Minor comments were made and movements from previous year explained. Specific comments were:-

- 1996/7 showed a surplus of £675 which compared favourably to the 1995/6 surplus of £542.
- Magazine sales had been consistent but printing costs had increased yet again. The new magazine format had been introduced to keep printing costs at a sensible level.
- There was no transfer this year from the Life Members Fund to the Ordinary Fund. It was felt that there was little
 point in processing this transfer which was only a paper exercise.
- ICCF Congress expenses this year would be around £2,000 as it was to be hosted in Argentina. Hopefully, in
 future years, the Association would only have to contribute to one delegate as ICCF would consider contributing
 to its major office-bearers' costs.
- The auditor had been changed due to the short time available for completion of the audit following the lost of the deposit account passbook by the Clydesdale Bank.

With no further questions being asked, the accounts were accepted unanimously.

International Secretary's Report

The International Secretary reported the following:-

- ICCF were organising an open Email team tournament. Membership was not necessary for participation but it
 was hoped that anyone interested would also become an SCCA member.
- The Olympiad Final was a close run event. Russia were likely to finish in the bronze medal place, but Scotland
 and Canada were level fourth with one result each to declare. It is likely that the top four will qualify for the next
 final but if Canada and Scotland tied for fourth, both might qualify.
- New friendly internationals had started during the year and further were proposed. Richard Beecham had
 indicated his intention to stand down as Assistant International Secretary and he was thanked for his work.
- The Association had difficulty in finding four ladies to represent Scotland in the Ladies Olympiad Final, after being surprise qualifiers from the Preliminary Section.

Election of Office-Bearers

The following were elected to the Executive Committee:-

President David Kilgour
Vice President Iain Mackintosh
Secretary Alan Hind
Treasurer David Kilgour
Assistant Secretary Iain Sneddon

International Secretary George Pyrich (also ICCF Delegate)

Assistant International Secretary
Grading Officer
Publicity & Membership Officer
Other Members

Tom Thomson
Raymond Baxter
Bernard Milligan
Alan Borwell
Alan Armstrong

Thanks were given to all for their efforts over the last year, with special tribute to George Pyrich who had acquitted himself well in his report to ICCF Congress in Germany last year as Qualifications Commissioner. It had been hoped that George Livie could be enticed to take on the Presidency, given his long association with the Executive, but he had intimated that work commitments precluded his greater involvement at this time.

Election of Auditor

It was agreed that Mr. Stuart Mackenzie be officially appointed for the ensuing year. Thanks would be expressed to Mr. Hamish Bell who had been the Association's Auditor for many years.

Subscriptions

It was unanimously agreed that subscriptions for 1997/8 would be increased by £1 for ordinary membership and by £1 for the magazine, i.e. ordinary membership would increase from £13 to £15. Life Membership, which is calculated as a multiple of ordinary membership, would also increase from £60 to £75. There was to be no increase to tournament fees.

CHALLENGE TOURNAMENT

[by Bernard Milligan]

I begin with an apology to readers, and to Michael Lane in particular, for an error in my last report. In the last issue, I stated that Michael was expecting an ICCF grade of around 2400. This was wrong as Michael had informed us that he was expecting his new BCCS grade, in February, to be near 2400. Michael is not expecting to receive any ICCF grade and I had misread the information provided. My sincerest apologies to Michael for any embarrassment caused, and my thanks to him for bringing this matter to my attention. On the brighter side, I am sure that you will all join me in congratulating Michael on achieving a BCCS grade of 2406.

One member contacted me regarding the possibility of being paired against a computer in this tournament. Generally speaking, all participants are expected to accept any pairings assigned to them. However, in the case of computer participation, I am happy, as stated previously, to make an exception. Any participant who does not wish to be paired against a computer, need only contact me and I will ensure that they are only paired against human opponents. Some players may not have access to a computer and will enjoy the challenge of playing against the silicon beasts, which tend to make fewer mistakes. Chris Dowell has earned the dubious distinction of being the first player in this tournament to be beaten by the Novag Sapphire, but has told me that he thoroughly enjoyed his games. It is not unbeatable and some current opponents feel they have a better position against it. To them I would say, be careful, as concentration is required right to the end. One slip is often decisive.

The Association still receives requests for introductory opponents, from players who are uncertain whether or not they may enjoy correspondence chess. In the past I relied on a few volunteers to fulfil this need. In future, any requests will be processed as entries to the Challenge Tournament and played under normal tournament rules. I would be grateful if anyone receiving such a new opponent, could take the time to be as helpful as possible to these potential new members. They will obviously not be well versed in the intricacies of correspondence play, and friendly guidance (not regarding moves!) will go a long way to ensuring that they enjoy the experience.

GRÜNFELD FOR THE ATTACKING PLAYER

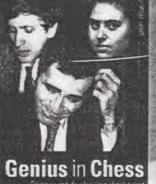

Bogdan Lalic

In the first repertoire book devoted to this dynamic chess opening for a decade, leading Croatian player Bogdan Lalic provides a complete set of recommended systems for Grünfeld enthusiasts. The Grünfeld has been a favourite of world champions Fischer and Kasparov and young contemporary adherents include Viswanathan Anand and Peter Leko.

GENIUS IN CHESS

£14.99 0 7134 8166 8

This exciting new book answers all the controversial questions:

- · What are the characteristics that make great chess players?
- . What is the link between IQ and chess talent?
- . How do top players develop 'vision'?

Central to the book is a selection of original and entertaining tests to measure your talent and compare your performance to those of top players!

NEW BOOKS

BATSFORD

Startling Castling! by Robert Timmer 240 pages, £15.99

This book provides an interesting contrast with the articles we are publishing from Nickolai Gurtovoi on "Winning without Castling".

In this original publication, there are examples of using castling as an attacking or even decisive move.

However, there are parallels which can be made with Nickolai's philosophy that players often castle prematurely or on the wrong side of the board.

The Dutch author has compiled an interesting and thought provoking book.

C.O.O.L. Chess by Paul Motwani 192 pages, £14.99

This is Paul's second book using his favourite acronym-based approach. Although he gives some alternative definitions, the main focus is showing how Creative Original Opening Lines can bring astonishing success.

There are chapters on imprisoned bishops, freeing the pieces, and "f" for forward. There are five instructive French Defence games and four under the weird heading of "Ice Cool Ace Lines"!

Another enjoyable book, interesting games, puzzles to solve and plenty of anecdotes expressed in typical Motwani style.

Cadogan Chess Books

Basic Chess Openings by Gabor Kallai 192 pages, £12.99

This new Hungarian GM has attempted to include all openings with 1 e4 in one book. Although half of the pages are dedicated to the Sicilian and Ruy Lopez, there are some interesting ideas in less analysed openings. Another companion volume is due to cover all other alternatives to 1 e4.

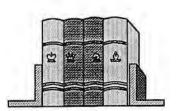

Garry Kasparov and the Kasparov Chess Academy 144 pages, £12.99

A beginner's book written in conjunction with the Kasparov Chess Academy, which aims to help youngsters develop their chess potential.

The Queen's Gambit Accepted by Iakov Neishstadt 288 pages, £14.99

This is substantial treatise on a very important defence to 1 d4. Despite periods of unpopularity at the highest levels, the QGA remains one of the most enterprising ways of countering the QP opening. It includes up-to-date references and games played by leading GMs. Once again, Ken Neat has produced an excellent translation of the work of one of the leading Russian chess authors, who is also a correspondence chess IM.

Play the Evans Gambit by Tim Harding and Bernard Cafferty 239 pages, £15.99

This opening has been the subject of several books in recent years, but this is the best and most up-to-date one, written by its two experienced authors. It is a fully revised edition of an earlier book written in 1976.

I cannot recollect ever having played an Evans Gambit from either side of the board and therefore cannot be very excited about this book. However, Kasparov and Shirov have used it successfully in recent years (and even Nigel Short!)

> Practical Opening Tips by Edmar Mednis 159 pages, £12.99

This is a well produced, informative and readable book, containing good explanations on opening strategy and principles. It encourages readers to be creative with their opening play, without being reckless or unsound. There is good advice on how to study an opening or develop a manageable repertoire.

The Final Countdown by Hajenius & van Riemsdijk 128 pages, £10.99

This book covers the fundamental principles of pawn endings.

Nicely presented in an interesting style. There are some really fascinating and remarkable studies and exercises. A really good book which brings to life the amazing complexities in positions with only King and pawns remaining!

Cadogan Chess Books

Fire on Board Shirov's Best Games by Alexei Shirov 240 pages, £17.99

This is a collection of over 80 games of this highly creative and dynamic young GM of modern times.

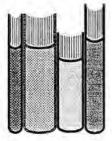

There is also a special chapter on his favourite Botvinnik variation of the Slav Defence, demonstrating its wealth of tactical complexities. Playing through these games, one is reminded of the "explosion" which the young Tal made to the chess scene some 30 years earlier.

If you need inspiration and a touch of courage of your convictions for postal chess games, then this is a book for you!

BITS 'n' Preces

by ian marks

"In the fight between you and the world, back the world."

Kafka

Back in issue 27 of the mag I sang the praises of Nimzo's 'other' defence, I e4 Nc6, a nice little earner for me during the mid/late '70s. Three nasty defeats, though, in the British Candidates, left a bad taste in the mouth, and I eventually moved on to other things.

"The Wheel of Time turns, and Ages come and pass, leaving memories that become legend. Legend fades to myth, and even myth is long forgotten when the Age that gave it birth comes again."

Robert Jordan, The Eve of the World

Two decades older and wiser (ahem...); limbering up for WT/M/GT/344... Faced with the information explosion and reluctant to cruise the theoretical superhighway, I decide the time is ripe to dig out 1 ... Nc6, dust it down and... well. let's just take the games in the order in which they finished.

White: Albéric Mevel (France)

Black: Ian Marks

1 e4 Nc6 2 d4 d5 3 Nc3!

The case for 3 e5 is that, with the knight on c6, Black's thematic counter, c7-c5, is that much harder to achieve. Personally, I've always found that Black is O.K. What is evident is that, the stronger the player, the more likely he/she is to reach for the QN.

3 ... dxe4

3 ... e6 is perfectly playable. problem with it is that nobody (well, almost nobody) plays 1 e4 e6 2 d4 d5 3 Nc3 Nc6 *. 3 ... e5 is also 'playable', although it has never really recovered from the mauling it took in Penrose-Zapletal, X Olympiad Final: 3 ... e5 4 dxe5 d4 5 Nd5 f5 6 exf6 Nxf6 7 Bg5 Be6 8 Bxf6 gxf6 9 Bc4 Bf7 10 Nf3 Bg7 11 Nh4 and White was in the driving seat (1-0, 23). For some reason I ignored this in Marks-Feinstein, SCCA Candidates 1992-94: 3 ... e5 4 dxe5 d4 5 Nd5 f6 6 Bb5!? (6 exf6, à la Penrose) Bd7 and 1-0, 64, after much huffing and puffing.

4 d5 Ne5

Or 4 ... Nb8, although it takes more guts than I've got to countenance such a loss of time.

★ Tigran and Viktor both have. Who am I to argue?

5 Bf4 Ng6 6 Bg3 f5

6 ... a6, a more passive way of stopping Nb5, is probably too slow. Defending the position after 7 Bc4 Nf6 (7 ... f5!?) 8 Qe2! is not my idea of fun. (I lasted 18 moves in Cloudsdale-Marks, BCCC Candidates 1976-77, Q.E.D.)

7 Nh3! ± going on ±

The more usual move (for an unusual opening) is 7 h4 (\(\frac{7}!?\)), but that seems to accommodate Black, e.g. 7 h4 e5 8 h5 Nf4 9 Bxf4 exf4 and Black shouldn't have much to worry about (nor did he in Marks [i.e. me]-Morton, SCCA Candidates 1984-86, 0-1, 31). The text is a no-risk way of ensuring a safe advantage.

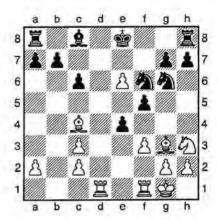

7 ... e5 8 dxe6 Qxd1+

8 ... Bxe6 9 Nb5!? Bd6 (Bb4+ Δ 10 c3 Ba5 runs into 11 Qa4!) 10 Bxd6 cxd6 11 Qd4 Nf6 12 Ng5 left White calling the shots in Rogers-Dunne, Philadelphia 1986.

9 Rxd1 Bb4!?

The radical way to stop Nb5. Is 9 ... c6 so bad?

10 Bc4 c6 11 0-0 Bxc3 12 bxc3 Nf6 13 f3! +-

Way ahead in development, White sets about ripping the position open. Black is busted.

13 ... Nd5

An attempt to keep lines closed and get at the Δ e6. 13 ... Ke7 14 Bd6+ is pointless, but can Black hang tough with 13 ... Ne7 Δ 0-0/Nfd5?

14 Bxd5 cxd5 15 c4!

Every one a bull's eye. 15 Rxd5 Bxe6 gives Black some breathing space.

15 ... dxc4

15 ... Bxe6 16 cxd5 Bd7 (Bf7 17 fxe4 fxe4 18 Ng5 anyway) 17 Ng5 and White pours in.

16 fxe4 fxe4 17 Ng5 Rd8

Nothing makes any difference by now. My friendly and unassuming opponent had kindly offered to put me up any time I might be playing in the Paris area, showing more courtesy than I did in trying to make it to move 20 to salvage what was left of my visage.

18 Rf7! Bxe6 19 Rxg7 Bf5 20 Nxh7 Rh8

20 ... Resigns was better.

21 Nf6+ Kf8 22 Rxb7 1-0

"He rode well. I wish he'd fallen off though." Lester Piggott

My next opponent shares my initials, except that he gets to put them between his name and a healthy Elo.

White: Günter Kühnel IM 2475 (Germany) Black: Ian Marks

1 e4 Nc6 2 d4 d5 3 Nc3! dxe4 4 d5 Ne5 5 Qd4!

On the basis of the previous game, 5 Bf4 looks good, but, as we shall see, this is not to be sneezed at either.

5 ... Ng6

5 ... Nc6?? is embarrassed by 6 Qa4, but how playable is 5 ... Nd7!?, Δ ... Ngf6/g6/Bg7 etc.? And I wonder, just wonder, if 5 ... f6!? is an option. Weakens e6, but refuses to cede ground in the centre, and if 6 Bf4 Ng6 7 Bg3 e5!? becomes of moment, while the Ne5 might find profitable employment later on via f7 and d6. Hmmm...

6 Qa4+ Bd7 7 Qb3 Qc8 8 Nxe4 e5 9 Bc4 Bd6

Both Harding and Myers cop out here without assessment. The implication seems to be that Black is O.K. With a little help from me, Herr Kühnel proceeds to demonstrate that things are not that simple.

10 Ne2

10 ... h6?

The 'idea' is to play ... f5, contesting e4, without allowing Ng5 in reply, a lunatic scheme given my cramped and undeveloped position. Surely 10 ... N8e7 \triangle 0-0 is O.K.?

11 N2c3 a6?

What was I on? Herr Kühnel finishes with a few deft strokes.

12 Nxd6 cxd6 13 Ne4 Ke7 14 Bd3 f5?

At least you have to admit that I'm consistent in my plans.

"The more human beings proceed by plan, the more efficiently they may be hit by accident." Friedrich Dürrenmatt

15 Nxd6! Kxd6 16 Qb6+ 1-0

White: Emil Bazela (Slovakia) Black: Ian Marks

1 e4 Nc6 2 d4 d5 3 Nc3! dxe4 4 d5 Ne5 5 Qd4 Ng6 6 Qxe4

The major alternative to 6 Qa4+. Both moves often lead to fundamentally similar positions.

6 ... 26

To cut out the possibility of 7 Bb5+. Black can play an immediate 6 ... Nf6, but even such a Nimzo expert as Rainer Knaak, the only GM to regularly patronise 1 ... Nc6 in the

'70s, was unable to catch up after 6 ... Nf6 7 Bb5+ Bd7 8 Oa4 a6 9 Bxd7+ Oxd7 10 Oxd7+ Nxd7 11 Nf3 Rd8 12 Be3 Nde5 13 Nxe5 Nxe5 14 0-0-0 Nc4 15 Bf4 Nd6 16 Rhe1 g6 (the strength of the & d5 is obvious) 17 Ne4! (see the threat?) Nxe4 18 Rxe4 (±/±) and in Barle-Knaak, Pula 1975, White milked the win in 62. There are a couple of points worth making about this line, though. First, after 6 ... Nf6 7 Bb5+. Black has the option of 7 ... c6!?, which suggests that White should play 7 Qa4+ first (Bd7 8 Bb5); second, Black can consider playing his 2 back to f6, biting the bullet with ... e6/dxe6/fxe6 and arranging the get castled, and, third, if you want to play this line, you need to look at the possibility of 10 ... Kxd7.

7 Nf3 Nf6 8 Qa4+ Bd7 9 Qb3 Qc8 10 Bd3 e6!?

This ultimately reacts to White's advantage. Maybe 10 ... e5 deserves preference.

11 0-0 Be7 12 Bc4 b5

This is already a little awkward for Black, e.g. if 12 ... exd5 13 Nxd5 is awful.

13 dxe6!

I'd seen this. I felt that what follows was the best of a dodgy bunch for Black. Maybe in blitz, but hardly against a decent CC opponent.

13 ... fxe6

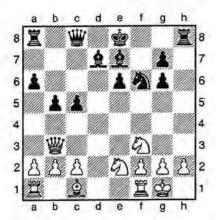

13 ... bxc4 14 exd7+ Qxd7 15 Qxc4 just loses a pawn. I preferred the text to an ending with weaknesses after 13 ... Bxe6 14 Bxe6 Qxe6 15 Qxe6 fxe6.

14 Bd3 c5

Trying to make something of the offside position of the white queen, but it could also be construed as unwarranted aggression while behind in development.

15 Bxg6+ hxg6 16 Ne2

Noticing the threat of 16 ... c4. Optically, Black's position looks pretty 'dynamic': two bishops on an open board, possibilities of ... Bc6/Bd6/Qc7, or ... Ng4/Ne4/Nd5-f4 etc., as in some lines of the ... Qxd5 Tarrasch French.

16 ... c4 17 Qe3 Ng4

17 ... Nd5 18 Qe4

18 Od4

If now 18 Qe4 e5 19 Qxg6+ Kf8 20 Ng3 (to stop ... Bf5/Bc5/e4) Bc6 with some compensation for the pawn: active pieces in return for weaknesses.

18 ... e5 19 Nxe5 Bc5 20 Qf4 Rf8 21 Qg5 Rxf2 22 Rxf2 Bxf2+ 23 Kf1

Threatening 24 h3.

23 ... Ba7

And Black has run out of steam.

24 Qxg6+ Kd8 25 Nf7+ Ke7 26 Bf4 Bb8 27 Re1 Kf8 28 Ng5 Qe8 29 Qh7 1-0

A good bash, but no more than that. White always had everything under control.

"Life is just one crushing defeat after another." Homer Simpson White: Roberto Alvarez (Argentina) Black: Ian Marks

1 e4 Nc6 2 d4 d5

Probably I should point out that Black can also play 2 ... e5, but in that case he has to like both the open and closed positions after 3 dxe5 and 3 d5 respectively, as well as be prepared to defend a Scotch after 3 Nf3. Borwell-Marks, SCCA Lge Div 1 1990-91, transposed into d5-positions after 1 d4 Nf6 2 c4 Nc6!? (Ha!) 3 Nc3 e5 4 d5 Ne7 5 e4 Ng6 6 Be3 Bb4 7 f3 Bxc3+ 8 bxc3 d6 9 g3 Nd7 10 h4 Nc5 11 h5 Ne7 12 g4 0-0, reaching a fun position where Alan had made ten pawn moves and I seven knight moves! (½-½, 44)

3 Nc3! dxe4 4 d5 Ne5 5 Qd4 Ng6 6 Qxe4 a6 7 Bg5

I think we're going our own way already.

7 ... h6

7 ... Nf6!?, tempting White to cede the bishop pair.

8 Be3 Nf6 9 Oa4+ Bd7 10 Ob3 Oc8

Reaching a similar set-up to what has gone before.

11 Nf3 e5!?

Bazela-Marks was three months ahead at this stage, so I had learned all about putting this pawn on e6.

12 Bd3 Bd6 13 0-0 0-0

The only time in these four games where I manage to castle! (Now there's a lesson...) Black's position is sound enough, but his horizons are limited. White has a lot more room to manoeuvre.

14 Nd2! Nh4?!

This and the next are just decentralising. Aiming for exchanges with 14 ... Ne7 Δ Bf5 and/or pressure on d5 looks more apposite.

15 Rfe1 Ng4? 16 Nce4 Nxe3 17 Nxd6 cxd6 18 fxe3

And Black has exploitable weaknesses on b6 and d6.

18 ... f5

The 'point' of my 15th.

19 Qb4!

19 ... e4

It's hard to think of anything constructive to say here, so I'll just shut up and let Señor Alvarez's moves do the talking.

20 Bf1 Qc7 21 Nb3 Qxc2?! 22 Nd4 Oc5 23 Oxb7 Rfd8 24 Rac1 1-0

Would I have come up with more sensible ideas and stronger resistance if I'd been playing any one of these games individually? When you see four games - three of them very similar - start to slip, at more or less the same time, it becomes very hard not to find yourself succumbing to disillusionment and frustration. Who doesn't know the feeling? I was lucky to get nil.

There are many good defences to 1 e4. I no longer count 1 ... Nc6 amongst them.

Grading List 1997

[by Raymond Baxter]

The past year has been dominated by the problem of the disparity between SCCA and ICCF grades. This matter was first aired by Bernard Milligan in last September's magazine, and there have been other helpful contributions from Philip Giulian and Colin MacGregor.

During the year the disparities have been investigated, and we have eventually come to the conclusion that the SCCA grades should be brought closer into line with those of the ICCF. Council has decided to increase SCCA grades by up to 200 points. The full increase of 200 is being made to those players who have had no opponents with ICCF grades. Proportionately smaller increases apply to players with ICCF opponents, since their grades already in part reflect the higher grades of these opponents.

This increase has raised the average SCCA grade by 185 points. On average the disparity between SCCA and ICCF grades should now be less than 100 points, although in individual cases there may still be larger differences. There are now over 30 players with SCCA grades above 2000, compared with only four last year. Players may also notice that their correspondence grades are now substantially higher than their over-the-board grades. This has been true for many players with ICCF grades for several years.

The grades shown below include this special increase, and take account of all games reported to the grading officer by 31/12/96. They will be used for any games starting in 1997. Where there are results still to come from games which started in 1996, the relevant 1996 SCCA grades will be specially increased for consistency with the new grades.

All SCCA events listed in the magazine are included, except the Openings tournament. Friendly internationals are also included if the opponent's grade is known. Where Scottish players have a grade in the ICCF list of 1/7/97, then this grade is shown, marked "i". Provisional grades (ie less than 30 results) are denoted with an asterisk.

If you have any queries about your grade, in particular if you think the data held for you may be wrong, please write in (note my new address on page 1) or phone.

Last year I invited members who wished to see details of the computer calculations of their SCCA grades to ask for a copy. Despite the underwhelming response (nobody asked for this) the offer is repeated.

In the next magazine I hope to be able to provide an updated list of those with SCCA Master titles and norms.

QP Irregular A43

1 d4 c5 2 d5 f5

The home-brew Clarendon Court opening; it has some surprise value but is positionally dubious.

3 c4 d6 4 2c3 g6 5 e4!

The recommended reposte - Black will soon have a number of weak squares on the \(\Delta\)-side.

5 Ag7 6 Ad3 fxe4 7 2xe4

Maybe Black should have played $\Delta xc3+$, breaking up the white pawns on either of the two previous moves.

7 2a6 8 a3 2c7 9 2f3 e5?!

Too committal - instead either ♣f5 or ♣g4 were preferable, keeping lines for the ♣g7 and also options of 쌀-side castling.

10 0-0

Obviously better than 10 dxe6.

10 当e7 11 昌e1 &d7 12 &g5!

Stopping **B**-side castling and causing Black some problems.

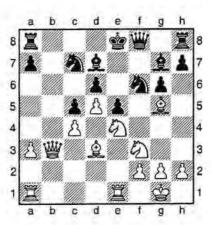

12 營修!

Better than the alternatives 12 ... 2f6 13 2xc5! dxc5 14 Exe5 winning quickly; and 12 ... 2f6 13 2xf6 2xf6 allowing 14 2xc5! again.

13 b4 b

13 ... cxb4 was likely better.

14 曾b3 全f6 15 bxc5 bxc5

Utilising the open b-file but 16 名xc5! was playable immediately when 16 ... dxc5 17 名xe5 公d8 18 d6! 名ce8 19 当b7 threatens both 20 当xa8+ and 20 当xd7 mate!

16 量c8 17 營xa7 營f7

An unfortunate square for the \(\Delta\). Seeking exchanges with 17 ... \(\Delta\) xe4 18 \(\Delta\) xe4 \(\Delta\) fo was better.

18 2xc5! Ag

Forced as 18 ... dxc5 19 2 xe5+ 2g8 20 2xf6 2xf6 21 2xd7 wins easily.

19 2e4 h6

Again 22 c5! was called for. However, the text spoils nothing except to drag things out a little.

Two pawns down, Black is quite lost.

When my opponent stole the b7 pawn, I remembered the story of a chessplaying family whose Head was dying. 14 &d2 might be playable. After 14... 包g4 15 對xe4 對xe5 16 &e3 對a5 17 對c2 f5 18 &d3 包xe3 19 fxe3, Black has compensation for the pawn.

This doesn't fare well - instead both 15 ... &e6 and 15 ... &f5 look better.

Now White stands well as he threatens to castle, whilst Black's ≅ is stuck in the centre.

Bringing a premature end. However retreat with 17 ... 2 f6 was doubtless unappealing.

White emerges at least a \(\mathbb{\beta} \) to the good.

Now, one of my own efforts from the current Friendly International against the Netherlands.

The alternative 6 ... $\Delta xc3+$ is much more common and very likely better when 7 bxc3 dxc4 8 $\Delta xc4$ c5 follows; whilst there's nothing wrong with 6 ... $\Delta e7$.

An off-beat position. My source here was Kosten's 1994 Batsford publication on this opening.

8 ... e5 didn't fare well after 9 全台 exd4 10 全xd4 全bd7 11 b5 全b6 12 0-0 a6 13 bxa6 c5 14 axb7 全xb7, 1:0, Gulko-Benko, Aruba, 1992, quoted by Kosten.

19 h4

Encouraged by his 17th.

Anything but this - I knew that he intended Bh8 next but White has a combination available (after the B denies the black \$\overline{\pi}\$ use of the h8 square) [19 ... \$\overline{\pi}\$b7 was better, 20 bxa6. After 20 \$\overline{\pi}\$xg6+ is only a draw by perpetual check.] 20 ... \$\overline{\pi}\$xa6+ 21 \$\overline{\pi}\$g1 \$\overline{\pi}\$b7 22 e4, both 22 ... c5 and 22 ... \$\overline{\pi}\$f6 look playable for Black.

Lastly, a game from the recent Russia v the Rest of the World match, annotated for us by John Hawkes.

Sadly, just before going to press, we heard that Dick Smit had died in his home town of Zwolle. Dick was a very strong GM, representing the Netherlands in many high level international team and individual tournaments. He was a regular attender at Congresses, with a

particular interest in Telechess. Those of us who were privileged to meet Dick will remember him as one of the real characters of postal chess, with a mischievous sense of humour and fun. His recording technique with the video camera and his reports will long be remembered, as will his favourite fianchetto defence to the Ruy Lopez and other opening novelties - Editor

The Playing of Chess

[by Peter Jack]
[With Apologies to T.S. Eliot]

The Playing of Chess is a difficult matter, It isn't just one of your holiday games; You may think at first I'm as mad as a hatter When I tell you a player has THREE DIFFERENT AIMS. First of all there's the wish to come first and not second, To make sure that the one kicking cats isn't you, By the employment of logic and wit that is fecund, Combinations that sparkle and ideas that are new. There's a fancier aim if you wax philosophical And trawl through the maze of the mind's hidden lairs To conclude in the end that it's all allegorical, An attempt to find truth within sixtyfour squares. But above and beyond there's still one aim left over, And that is the aim that you never will guess; The aim that no human research can discover -But THE PLAYER DOES KNOW, and will never confess. When you notice a player in profound meditation, The reason, I tell you, is simple to prove: His mind is engaged in a rapt contemplation Of the thought, of the thought, of the thought of his move: His ineffable effable Effanineffable Deep and inscrutable singular Move.

Presentation of Quaich and Tankard to Alan Borwell (left) by Alan Hind (right)

Bernard Partridge Memorial Tournament

The Preliminary Sections will be concluded on 31st October 1997, with any unfinished games to be adjudicated. Although it would be preferable for all games affecting qualification to be decided normally, it would be unfair to all other qualifiers to have to wait any longer before commencing their games in the next stage of the tournament. Controllers will be contacting the few players with several unfinished games and also all qualifiers for the Semi-Finals.

As reported in our last edition, the winner of the tournament was D. Olofson (SVE) with 11 points. With only one game remaining to be completed, the other leading placings have now been decided, with a tie for second place between Dr. E.H. Sprenger (NLD) and H. Prokopp (GER), each with 9½ points, and T.K. Romsdal (NOR) in fourth place with 9 points. Our own Tom Craig was next with 8½ points, an excellent achievement.

This tournament has been a fitting memorial to the late Alan Shaw, being played in a friendly yet competitive spirit, with Controller George Livie having very few problems to resolve. Alan will always be remembered for his sportsmanship, helpfulness and modesty - a great ambassador of Scottish chess.

INTERNATIONAL REPORT

In late 1990, the Scottish CC organised two IM Sections to commemorate the 10th Anniversary of the Magazine, and in the Spring of 1991, a third Section was arranged for Lady players - the first ever Ladies Invitation Tournament approved by ICCF. This Section has just concluded, with the final crosstable shown on the next page. Many congratulations to the prizewinners from Czechia, Russia, Croatia and USA! There was a quadruple tie for 5th place, which indicates a very hardfought competition. The Controller was Colin Macgregor, who handled the event very efficiently.

Readers Letter

Calum Wallace from the Isle of Lewis writes......

"After some recent feedback from one of my team members in the SCCA League, I find myself questioning the motives of some players, in playing postal chess.

The dispute or storm in a teacup, call it what you will, revolves round claiming games on time. What is the point of playing if you look for the first opportunity to claim a game on time?

I personally have never had any time problems with my opponents, maybe I was lucky. I rarely amend dates unless they are dubious. If my opponent was heading for time trouble, then I would suggest that he/she use up some of their holiday time. This usually sobers them up into being more circumspect.

I fear I will lose one of my team members after returning to postal chess from a long lay-off because of his time factor experiences. Hopefully, I can persuade him that there are players out there who think the same as he does and bring him back to the fold.

What do your readers think?"

Bernard Milligan, the SCCA's Publicity & Membership Officer, comments.....

"I greatly sympathise with Calum's views but must own up to being one of the offending players who has claimed games on time. I have done this twice, and the most recent was in this season's team League Division 1, when I felt that as I was representing my team that I had a moral obligation to do so, since all results affect the team's performance.

The question of whether a game should be claimed on time will no doubt produce different opinions from different players. If it is better to ignore the fact that your opponent has overstepped the time control, then there is no point in having any time controls in the first place. This, of course, would mean that some players would take forever to play their moves, and possibly result in players who reply at a more reasonable speed, losing interest as games drag on forever. I personally feel that the use of strict time controls is beneficial, as both players are then playing on a level field. I have had no problem with this in the past and believe that it has been a great help in keeping games moving along at a reasonable

I believe that Rules are there to be observed and that they have been put there, sometimes after many months of agonising consideration, for a good reason. I regularly check postmarks and amend my opponents' postal dates as required. Unfortunately, I have found this to be necessary as a few players regularly seem, perhaps through no fault of their own, to have dates on their cards which are widely inconsistent with the postmark dates on the envelope. I have also amended opponents' times by taking days off their total time when the postmark date has been earlier than they indicated on their card. I believe you should always be fair and consistent when applying the official Rules.

I have never considered telling my opponent to try and speed up play to avoid overstepping the time control. This is possibly because I would feel embarrassed by possibly suggesting that my oponent was incapable of monitoring their own progress. We all know the Rules at the outset and we are all capable of observing them.

Perhaps the current time controls are too harsh, I don't know. The SCCA are currently reviewing all their Rules and would welcome comments from any interested members.

I fully understand Calum's questioning some players motives for playing postal chess, but you could ask the same thing about someone who is happy to capitalise on a clerical error

by their opponent. I have fallen foul of this on many an occasion and accept it as part and parcel of the game. I play the game for pure enjoyment but accept that I have to take part within the framework of the established Rules - win, lose or draw!

I sincerely hope that Calum's fellow team member will decide to continue playing. If they do they will be rewarded with many wonderful games and these will far outweigh the occasional disappointments. There's also the opportunity to take part in events with longer time controls, such as the Challenge Tournament. I have yet to see anyone lose on time in that event."

New ICCF Tournaments Email Events

In addition to the already established Email Master Class and Cup tournaments, the following two new events have been announced:-

ICCF Email Master Norm Tourneys Sections of 11 players.

To be eligible, entrants must have either:

- fixed ICCF rating of 2300+ (ladies 2000)
- non-fixed ICCF rating of 2350+ (ladies 2050)
- FIDE rating of 2350+ (ladies 2050)
- have achieved 1st/2nd/3rd placing in National CC Championship

International Master Title norms available.

Entry fee £15 to George Pyrich.

ICCF Email Open Team Tourney

Teams of 4 players, with Preliminary round sections of 9 teams (8 games per player, per board).

Winning team in each section qualifying for 'A' Final, second placed for 'B' Final.

Teams can represent countries, regions, towns, clubs, associations, groups, etc, but must enter via SCCA.

Games will be rated and title norms will be available (where regulations can be satisfied).

Entry fee is £5 per player (£20 per team) payable to George Pyrich. Closing date is 31st July, with sections due to begin in September.
